## EASY-LASER®

Greetings from Alignment Supplies, Inc. and best wishes for a safe and successful New Year! We have great plans for 2009 and we hope you will stay tuned. Our first new product for 2009 is included in this newsletter. Keep reading to find out more!

## New for 2009

**The NEW Easy-Laser® D480 shaft system:** you asked for it... we listened! We've taken our easy-to-use, easy-to-own D450 and made it even better by adding our innovative **EasyTurn™** program as well as **Machine Train, Vertical Pump, Cardan, Values, Digital BTA and Vibrometer.**

Requiring only 40° of rotation, we've made precision shaft alignment even easier! Now limited space and environmental obstructions are no longer an issue. Like all Easy-Laser® systems, the D480 also includes **FREE EasyLink™ software**, on-site product orientation and a 2-Year Warranty. The Easy-Laser® D480: an **unbeatable** package and **price.**

## Why not upgrade?

Do you own an Easy-Laser D450? Have you had situations where EasyTurn would have made your job easier?

Contact us at **800-997-4467** to find out how easy it is to upgrade your current system to the **new D480!**

## EASY-LASER®

## What do our customers think about their Easy-Laser?

You have a great unit. The best thing I like about it is accuracy, consistency and ease of use. We use it for horizontal alignment and softfoot. It's a very dependable unit. I have used several other laser alignment units and Easy-Laser® is by far the best I have used. Not all the pretty 3D screen pictures, colors, bells and whistles - just a very good tool that does the job fast and does it right!

Mike Chelette  
Procter and Gamble

## Easy-Laser Training

Do you need to learn more about your Easy-Laser system? Maybe your staff needs more alignment training.

Alignment Supplies, Inc. provides training for both your shaft and machine alignment needs.
